

Supercaps Application in Telecommunications

Jinzhou Kaimei Power Co., Ltd. is one of the most professional supercapacitor suppliers from China. Ultracapacitor is of small size and has long-using life. It is environmental-friendly and easy to install. We supply the following supercaps with high quality. Kamcap supplies high-quality ultracapacitors and our customers can choose the supercap type which best suits their needs.

Nowadays, supercapacitor is widely used in the application of telecommunications, which includes 5G and Internet of Things (IOT).

Supercaps application in Internet of Things (IOT)

The Internet of Things has become an important direction for the future development of the world, and the Internet of Everything also carries the dream of the world. The IOT hotspots for super capacitor applications, including the automotive and logistics industries, the Internet of Vehicles industry, medical, and smart meters, have played an important role. Kamcap supplies <u>different types of supercapacitors</u>. We also pay attention to the development of IOT and keeps our pace with it.
